

NorthStar High Income Portfolio Key Investor Information Document Pack

KEY INVESTOR INFORMATION

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Aegon Diversified Monthly Income Fund

a sub-fund of Aegon Asset Management UK ICVC

Sterling Class B - Income shares (ISIN: GB00BJFLR106)

This fund is managed by Aegon Asset Management UK plc (the authorised corporate director ("ACD")).

Objectives and investment policy

Objective: to generate income with a target yield of approximately 5% per annum, with the potential for capital growth over the medium term (being any 5 year period). By investing in the Fund, capital is at risk. There is no guarantee that the Fund will generate this, or any other level of income or returns

Policy: The Fund is a flexible multi-asset fund that invests across a range of asset classes on a global basis, taking into account factors such as global economic trends and growth opportunities. As a result, at any one time the Fund may be diversified across asset classes, sectors, currencies or geographies in various proportions.

At least 80% of the Fund will usually consist of equities, corporate bonds and government and public securities. The typical level of investment in equities will be between 20-60% of the Fund's value.

The Fund may invest up to 20% in contingent convertible bonds (CoCos) being a type of bond which has the potential to convert to equity dependent/contingent upon a specific event. To the extent not fully invested in the main asset classes above, the Fund may invest in other transferable securities, collective investment schemes (up to 10% of Net Asset Value and including schemes managed by the ACD or its affiliates), derivatives, money market instruments, cash and near-cash.

Through these investments, the Fund may obtain indirect exposure to property, commodities and other specialist asset sectors, such as companies that specialise in aircraft leasing, infrastructure and renewable energy.

Derivatives may be used for investment purposes, for example exposure to assets may be gained through the use of derivatives (including long and short

positions for the purposes of adjusting risk exposures). Derivatives may also be used for efficient portfolio management (including hedging to reduce currency risk).

The Fund may invest in assets denominated in any currency. Non-Sterling exposure will typically be hedged back to Sterling to reduce currency risk but the Fund is permitted to take active non-Sterling exposure.

The Fund is actively managed and can invest in companies of any market capitalization (small, medium or large) and in any industry sector.

Through diversification, the Fund also looks to achieve lower volatility (i.e. changes in value) than global equities.

Other information

You can buy, sell or exchange the Fund's shares on any business day (see 'Dealing Day' in the Prospectus Definitions for more information).

Income the Fund receives may be paid out every month.

The Fund is not managed in reference to any index or benchmark. The ACD may use the MSCI World Index to measure the Fund's volatility against global equities. This is undertaken only for reference and comparison. The ACD does not use the Index as a target and the Fund's portfolio is not constrained by the Index.

It is expected that the Fund will be held as part of a diversified portfolio which may include other assets such as bonds, equities, property and cash.

Risk and reward profile

1	2	3	4	5	6	7
Lower risk / potentially lower rewards				Higher risk / potentially higher rewards		

The risk/reward profile shows the risk of investing in the Fund, based on the rate at which funds of this type changed in the past. This Fund has the above risk/reward rating because the price of shares and bonds can be affected by political or economic events, changes in exchange rates and changes in interest rates. Funds in category 4 have in the past shown moderate volatility. With a fund of category 4, you have a moderate risk of losing money but your chance for gains is also moderate.

The Fund's category is not guaranteed and may change over time. It is calculated using historical data, which may not be a reliable indication for the future. Category 1 does not mean 'risk free'.

The following risks which are not, or are not fully, reflected in the risk/reward profile are also relevant to the Fund:

Credit: An issuer of bonds may be unable to make payments due to the Fund (known as a default). The value of bonds may fall as default becomes more likely. Both default and expected default may cause the Fund's value to fall. High yield bonds generally offer higher returns because of their higher default risk and investment grade bonds generally offer lower returns because of their lower default risk.

Liquidity: The Fund's value may fall if some investments, especially in smaller companies or high yield bonds, become more difficult to trade or value due to market conditions or a lack of supply and demand.

Counterparty: Investments such as derivatives are made using financial contracts with third parties. Those third parties may fail to meet their obligations to the Fund due to events beyond our control. The Fund's value

could fall because of: (i) loss of monies owed by the counterparty; and/or (ii) the cost of replacement financial contracts.

Other markets: The Fund may invest in countries which have less developed political, economic and legal systems and which provide fewer investor protections. Difficulties in buying, selling, safekeeping or valuing investments in such countries may reduce the value of the Fund.

Concentration risk: The Fund may invest more than 35% of its value in securities issued by a single Government or other Public issuer. Holding a limited number of underlying investments means a change in the value of any one investment has more impact on the Fund's value. This increases potential gain but also potential loss.

Equity Risk: The fund's equity allocation will likely be more volatile than its other assets and their value may fluctuate quite dramatically in response to the activities and results of individual companies, as well as wider market and economic conditions.

Derivatives: The value of derivatives depends on the performance of an underlying asset. Small changes in the price of that asset can cause larger changes in the value of the derivative. This increases potential gain but also potential loss.

Foreign Exchange Risk: The Fund's portfolio of investments may be denominated in a range of currencies which differ from the Fund's base currency. Fluctuations in these currencies may increase the risk of losses to the Fund where hedging is not used or is incomplete or unsuccessful.

Fund charges: The Fund charges its fees against capital, which will increase the amount of income available for distribution to Shareholders, but may constrain capital growth.

Interest Rate Risk: Bond values are affected by changes in interest rates. When interest rates rise, the value of the Fund is likely to fall.

Full details of risks are disclosed in the section 'Risk Factors' in the Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	None
Exit charge	None

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

Charges taken from the Fund over a year

Ongoing charges	0.58%
-----------------	-------

Charges taken from the Fund under certain specific conditions

Performance fee	None
-----------------	------

The entry and exit charges shown are the maximum figures, and in some cases you may pay less. You can find out specific charges which apply to your investment by contacting your financial adviser, distributor, or by contacting us using the details given in the Practical Information section.

The ongoing charge is based on expenses for the year to 31 December 2025. This figure may vary from year to year. It excludes any portfolio transaction costs (except in the case of an entry/exit charge paid by the Fund when buying and selling shares in another fund).

Switches or Conversion: 1st 4 in any calendar year are free, and subject to a charge of 1.5% on each transaction thereafter.

More detailed information on charges can be found in the 'Fees and Expenses' section of the Prospectus.

Past performance

Past performance is not a guide to future performance.

Fund launch date: 25 February 2014

Share class launch date: 25 February 2014

Performance is calculated in GBP.

The past performance calculation does not take into account the entry and exit charges but does take into account the ongoing charge, as shown in the 'Charges' section.

Note: On 7th September 2020 the name of the Fund changed from Kames Diversified Monthly Income Fund to Aegon Diversified Monthly Income Fund.

Practical information

Aegon Asset Management UK ICVC is a UK UCITS scheme structured as an umbrella company with various sub-funds, with segregated liability between sub-funds. This document describes one sub-fund of the UK UCITS; the Prospectus and the Report and Accounts are prepared for the entire UK UCITS. You can exchange your holdings into another share class of the Fund, or another sub-fund of the UK UCITS, at any time. More detailed information on exchanging can be found in the 'Buying, Redeeming, Switching and Conversion of Shares' section of the Prospectus.

The assets and liabilities of the Fund are segregated by law. Accordingly, the assets of this Fund belong exclusively to it and may not be used to meet the liabilities of, or claims against, any other fund within the Aegon Asset Management UK ICVC. Any liability incurred on behalf of, or attributable to, the Fund shall be discharged solely out of the assets of the Fund.

The depositary is Citibank UK Ltd.

The prices of shares will be published daily on our website (www.aegonam.com).

Further information about the Fund and copies of the Prospectus and the latest Annual and Semi-Annual Report and Accounts can be obtained, free of charge, on our website (www.aegonam.com). These documents are available in English.

You should be aware that tax legislation in the UK (where the Fund is authorised) may have an impact on your personal tax position.

Aegon Asset Management UK plc may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus.

Details of the up to date remuneration policy of Aegon Asset Management UK plc ("the Company"), including but not limited to a description of how remuneration and benefits are calculated and the identity of persons responsible for awarding the remuneration and benefits, are available at www.aegonam.com. A paper copy will be available free of charge upon request at the registered office of the Company.

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Artemis Global Income Fund (the “fund”)

The fund is managed by Artemis Fund Managers Limited.

ISIN:	GB00B5N99561
Class:	I distribution units, GBP

This key investor information document is accurate as at 18 February 2026.

OBJECTIVES AND INVESTMENT POLICY

Objective

To grow both income and capital over a five year period.

Investment policy

What the fund invests in

- 80% to 100% in company shares.
- Up to 20% in bonds, cash and near cash, other transferable securities, other funds (up to 10%) managed by Artemis and third party funds, money market instruments, and derivatives.

Use of derivatives

The fund may use derivatives for efficient portfolio management purposes to:

- reduce risk
- manage the fund efficiently.

Where the fund invests

- Globally

Industries the fund invests in

- Any

Other limitations specific to this fund

- None

Investment strategy

- The fund is actively managed.
- The manager favours companies which exhibit strong levels of free cashflow generation (cash that is left over after a company pays for its operating and capital expenditures which can be returned to investors through dividends and share buybacks) relative to other companies in the market, dividend distribution and dividend growth.
- Detailed financial review of companies and wider economic analysis is also undertaken.

Benchmarks

MSCI AC World NR GBP

A widely-used indicator of the performance of global stockmarkets, in which the fund invests. It acts as a 'comparator benchmark' against which the fund's performance can be compared. Management of the fund is not restricted by this benchmark.

IA Global Equity Income NR

A group of other asset managers' funds that invest in similar asset types as this fund, collated by the Investment Association. It acts as a 'comparator benchmark' against which the fund's performance can be compared. Management of the fund is not restricted by this benchmark.

Other information

Dealing frequency: Normally Monday to Friday except UK public holidays and non-dealing days.

Visit <https://www.artemisfunds.com/en-gb/individual/resources/knowledge-centre/understanding-funds/what-are-non-dealing-days/> for more information.

Instructions received before 12 noon UK time will be processed at 12 noon on the same day.

Distribution policy: This is a distribution class. Any income this fund receives will be paid out to investors every 6 months.

RISK AND REWARD PROFILE

- The fund is in the category shown due to historic volatility (how much and how quickly the value of shares in the fund may have risen and fallen in the past due to movements in markets, currencies and interest rates). It may not be a reliable indication of the future risk profile of the fund.
- The risk category has been calculated using historic data and may not be a reliable indicator of the fund's future risk profile.
- A risk indicator of “1” does not mean that the investment is “risk free”.

Risk indicator number is accurate as at: 31 January 2026.

The risk indicator may not fully take into account the following risks and the following may affect fund performance:

Market volatility risk: The value of the fund and any income from it can fall or rise because of movements in stockmarkets, currencies and interest rates, each of which can move irrationally and be affected unpredictably by diverse factors, including political and economic events.

Currency risk: The fund's assets may be priced in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the fund's value.

Income risk: The payment of income and its level is not guaranteed.

Emerging markets risk: Compared to more established economies, investments in emerging markets may be subject to greater volatility due to differences in generally accepted accounting principles, less governed standards or from economic or political instability. Under certain market conditions assets may be difficult to sell.

Charges from capital risk: Where charges are taken wholly or partly out of a fund's capital, distributable income may be increased at the expense of capital, which may constrain or erode capital growth.

Please refer to the fund's prospectus for full details of these and other risks which are applicable to this fund.

CHARGES FOR THE FUND

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charges	0.825%
Charges taken from the fund under certain specific conditions	
Performance fee	None

- The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. The charges reduce the potential growth of your investment.
- The ongoing charges figure is an estimate rather than a historic figure because this better reflects the expected future charges. The charges may vary from year to year. The exact charges made for each financial year are contained in the fund's annual report.
- Some or all of the annual management charge is taken from capital.

For more information about charges, please see the fund's prospectus, which is available at www.artemisfunds.com or www.fundinfo.com.
Charges are accurate as at: 31 July 2025, unless specified.

PAST PERFORMANCE

- I distribution units, GBP
 - MSCI AC World NR GBP
 - IA Global Equity Income NR
 - How the fund has performed in the past is not a guide to how it will perform in the future.
 - This class may have charges or a hedging approach different from those in the IA sector benchmark.
 - Past performance is net of all charges except any costs incurred when investors buy or sell the fund.
 - Performance is calculated in sterling.
 - Fund launch date: 19 July 2010.
 - Class launch date: 19 July 2010.
- Past performance is accurate as at: 31 December 2025.

PRACTICAL INFORMATION

Trustee: Northern Trust Investor Services Limited

Further information: Can be obtained from the fund's prospectus and the latest annual and half-yearly reports. The documents are in English and available free of charge. These can be found, along with other information such as the price of the fund's classes by contacting Artemis or visiting www.fundinfo.com.

Remuneration policy: Information about Artemis' remuneration policy is available at www.artemisfunds.com; a paper copy is available free of charge on request.

Tax legislation: UK tax legislation that applies to the fund may have an impact on your personal tax position.

Liability: Artemis Fund Managers Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the prospectus for the fund.

Glossary: For more information about some of the terms used in this document, please visit www.artemisfunds.com/glossary.

Switches: Subject to any restrictions on the eligibility of investors for a particular class, you can switch your investments between funds or classes in the Artemis range. For further information, please refer to the prospectus or contact Artemis.

Contact Artemis: Visit www.artemisfunds.com or call 0800 092 2051.

Authorisation and regulation: The fund is authorised in the UK by the Financial Conduct Authority. Artemis Fund Managers Limited is authorised and regulated in the UK by the Financial Conduct Authority.

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

CT GLOBAL MULTI ASSET INCOME FUND (THE "FUND")

Class E Income Shares (GBP) GB00BYMM6H02, a sub-fund of Columbia Threadneedle Opportunity Funds (UK) ICVC (the "Company"), regulated by the FCA.

This sub-fund is managed by Threadneedle Investment Services Limited (the "Management Company"), (part of the Columbia Threadneedle Investments group of companies).

Objectives and Investment Policy

- The aim of the Fund is to provide income with the potential to grow the amount you invested over the medium to long term.
- The Fund will invest at least two-thirds of its assets so as to gain global exposure to company shares, bonds (which are similar to a loan and pay a fixed or variable interest rate) and property. The amount of the Fund that is invested in the different asset types will vary over time as the Fund seeks to achieve its aim.
- The Fund will invest in shares and bonds indirectly through regulated and unregulated funds. The Fund may also invest in these assets directly or indirectly by using derivatives. Derivatives are sophisticated investment instruments linked to the rise and fall of the price of other assets.
- The Fund's exposure to commodities and property will be gained indirectly through other funds, related securities, or by using derivatives. Commodities are physical materials such as oil, agricultural products, and metals.
- The Fund may use derivatives for the purposes of Efficient Portfolio Management and for investment purposes. Derivatives are sophisticated investment instruments linked to the rise and fall of the price of other assets.
- Any income the Fund generates will be paid to you, unless you have chosen to have it reinvested.
- You can buy or sell shares in the Fund on any day that is a business day in London. You can find more detail on the investment objective and policy of the Fund in the Prospectus. For more information on investment terms used in this document, please see the Glossary available at columbiathreadneedle.com.
- Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and Reward Profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Lower Risk,
Typically lower rewards

Higher Risk,
Typically higher rewards

- The Fund is rated 4 based on the Fund's risk limit which indicates that it may show a medium level of volatility (how much the value of the Fund goes up and down).
- The lowest category does not mean a risk-free investment.
- The value of investments can fall as well as rise and investors might not get back the sum originally invested.
- As this Fund invests into other funds you should consider the underlying investments and overall risks.
- Where investments are in assets that are denominated in multiple currencies, or currencies other than your own, changes in exchange rates may affect the value of the investments.
- The Fund invests in securities whose value would be significantly affected if the issuer refused, was unable to or was perceived to be unable to pay.
- Changes in interest rates are likely to affect the Fund's value. In general, as interest rates rise, the price of a fixed rate bond will fall, and vice versa.
- The Fund's assets may sometimes be difficult to value objectively and the actual value may not be recognised until assets are sold.
- The Fund may invest materially in derivatives (complex instruments linked to the rise and fall of the value of other assets). A relatively small change in the value of the underlying investment may have a much larger positive or negative impact on the value of the derivative.
- The value of a property is a matter of a valuer's opinion and the true value may not be recognised until the property is sold. Should material uncertainty apply to the value of properties that constitute more than 20% of the scheme property, it may be necessary to temporarily suspend dealing.
- All the risks currently identified as being applicable to the Fund are set out in the "Risk Factors" section of the prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry Charge:	0.00%
Exit Charge:	0.00%

These are the maximum charges that we might take out of your money before it is invested. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the fund over a year

Ongoing Charges:	0.50%
------------------	-------

Charges taken from the fund under certain specific conditions

Performance Fee:	NONE
------------------	------

The ongoing charges figure shown here is an estimate of the charges because recent changes made to the Fund mean that the historic figures do not accurately reflect its ongoing costs. The UK-non-UCITS' annual report for each financial year will include detail on the exact charges made.

For more information about charges please see the Fund's prospectus.

Past Performance

Source: Morningstar

Past performance is not a guide to future performance.

Fund launch date: 31/07/2014

Share/unit class launch date: 02/03/2016

Performance is calculated in GBP.

All charges and fees, except any entry, exit and switching charge, have been included within the performance.

This chart shows how much the Fund increased or decreased in value as a percentage each year.

Practical Information

- Depositary: State Street Trustees Limited.
- You can obtain further information regarding the Fund, the Company, its Prospectus, latest annual reports and any subsequent half-yearly reports free of charge from the Management Company. The documents are available in English. You can obtain other practical information, including current share prices, at columbiathreadneedle.com.
- Details of the remuneration policy, including a description of how remuneration and benefits are calculated and the persons responsible for awarding them (including the composition of the remuneration committee), are available at columbiathreadneedle.com. A paper copy is available free of charge upon request.
- The tax legislation of the United Kingdom may have an impact on your personal tax position.
- Threadneedle Investment Services Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus for the Non-UCITS.
- This document describes a single fund of the Company. The Prospectus and reports are prepared for the entire Company.
- The assets of the Fund are segregated by law and cannot be used to pay the liabilities of other funds of the Company.
- You may exchange your shares for shares of other funds of the Company, if available. Details can be found in the section of the Prospectus with the heading "Switching/Converting". Details of other share classes of the Fund can be found in the Prospectus or at columbiathreadneedle.com.

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Invesco Monthly Income Plus Fund (UK) (the "Fund") A Fund of Invesco Fixed Interest Investment Series (the "Company") Z Accumulation share class (ISIN: GB00B8N45P45) (the "Share Class")

The Fund is managed by Invesco Fund Managers Limited, part of the Invesco Group.

Objectives and Investment Policy

- The objective of the Fund is to achieve income and capital growth over the medium to long term (3 to 5 years plus).
- The Fund invests at least 80% of its assets in corporate and government debt securities (which may be investment grade, non-investment grade or have no credit rating) and shares of companies globally.
- The Fund may use derivatives (complex instruments) for investment purposes and to manage the Fund more efficiently, with the aim of reducing risk, reducing costs and/or generating additional capital or income.
- The Fund has an active investment approach based on fund manager judgement supported by macroeconomic and credit risk analysis with an emphasis on valuation, has a flexible allocation to bonds and equities and is not constrained by a benchmark.
- The reference to (UK) in the Fund's name only relates to the Fund's domicile and is unrelated to the Fund's objective and investment policy.
- You can buy, sell and switch shares in the Fund on any Dealing Day (as defined in the Prospectus).
- Any income from your investment will be reinvested.
- Recommendation: The Fund may not be appropriate if you plan to withdraw your money within 5 years.

Risk and Reward Profile

Lower Risk ← Higher Risk
Typically lower rewards Typically higher rewards

1	2	3	4	5	6	7
---	---	---	---	---	---	---

- The Share Class is in risk category 4 due to the rises and falls of its price or simulated data in the past.
- As the Share Class' risk category has been calculated using historical data, it may not be a reliable indication of the Share Class' future risk profile.
- The risk category may change in the future and is not guaranteed.
- The lowest category does not mean a risk free investment.

Other Risks

- The value of investments and any income will fluctuate (this may partly be the result of exchange rate fluctuations) and you may not get back the full amount invested. Over time, inflation may erode the value of investments.
- The Fund has the ability to make use of financial derivatives (complex instruments) which may result in the Fund being leveraged and can result in large fluctuations in the value of the Fund. Leverage on certain types of transactions including derivatives may impair the Fund's liquidity, cause it to liquidate positions at unfavourable times or otherwise cause the Fund not to achieve its intended objective. Leverage occurs when the economic exposure created by the use of derivatives is greater than the amount invested resulting in the Fund being exposed to a greater loss than the initial investment.
- As one of the key objectives of the Fund is to provide income, the ongoing charge is taken from capital rather than income. This can erode capital and reduce the potential for capital growth.
- The Fund may invest in contingent convertible bonds which may result in significant risk of capital loss based on certain trigger events.
- As the Fund has wide discretion to dynamically allocate across the debt securities spectrum and between that asset class and shares of companies, the risks relevant to the Fund will fluctuate over time, which may result in periodic changes to the Fund's risk profile.
- The debt securities that the Fund invests in may not always make interest and other payments and nor is the solvency of the issuers guaranteed. Market conditions, such as a decrease in market liquidity, may mean that the Fund may not be able to buy or sell debt securities at their true value. These risks increase where the Fund invests in high yield, or lower credit quality, bonds.
- The Fund's performance may be adversely affected by variations in interest rates.
- The Fund is invested in perpetual bonds (bonds without a maturity date) which may be exposed to additional liquidity risk in certain market condition, and in particular, stressed market environments. This would have a negative impact on the value of these investments which in turn, would have a negative impact the Fund's performance.
- The Fund's performance may be adversely affected by variations in the relative strength of world currencies or if Sterling strengthens against those currencies.
- The Fund is theme-based or invests in a specific sector or a small number of sectors and/or industries. Investors should be prepared to accept a higher degree of risk than for a fund that is more widely diversified across different sectors/industries.
- A more detailed description of risk factors that apply to this Fund is set out in Section 29 of the Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
Any charges shown above are the maximum that might be taken out of your money before it is invested.	
Charges taken from the Share Class over a year	
Ongoing charge	0.67%
Charges taken from the Share Class under certain specific conditions	
Performance fee	None

- The ongoing charge figure reflects the fund management fee, a fixed fee. The figure excludes indirect ongoing costs and portfolio transaction costs.
- For a full breakdown of the fund's charges please see the Costs and Charges document on our website: www.invesco.com/uk/icvc-charges

Past Performance

- The Fund launched in 1999.
- The Share Class launched in 2012.
- The base currency of the Fund is GBP.
- Past performance of the Share Class is calculated in GBP.
- Performance figures are calculated inclusive of reinvested income and net of the ongoing charge and portfolio transaction costs.
- Past performance is not a guide to future performance.

Practical Information

- Depositary: Citibank UK Limited
- The UK tax regime may have an impact on your personal tax position.
- Invesco Fund Managers Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus.
- The Company is structured by having different funds. The assets and liabilities of each fund are segregated by UK Law. As a consequence the assets of the Fund will not be available to meet the liabilities of another fund within the Company.
- You are entitled to switch from this Fund to another fund within the Invesco ICVC fund range on request.
- More share classes are available for this Fund. You can find more information on our website.
- You can check the latest price for this Share Class on our website.
- Information on our remuneration policy is available on our website and can be obtained, free of charge, upon request.
- Further details can be found in the Prospectus and the Annual and Interim Reports, which can be obtained in English, free of charge, from www.invesco.com/UK or by calling us on 0800 085 8677.

Non-UCITS Retail Scheme Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Legal & General Multi-Index Income 6 Fund Unit Class I GBP Accumulation – ISIN: GB00BZ0RS348

The authorised fund manager of the Fund is Legal & General (Unit Trust Managers) Limited (the "Manager").

OBJECTIVES AND INVESTMENT POLICY

- The objective of the Fund is to provide a combination of income and growth within a pre-determined risk profile. The Fund will invest in assets that generate higher income over assets that grow in value. The Fund's potential gains and losses are likely to be constrained by the objective to remain within the risk profile.
 - The Fund is part of a range of risk profiled funds. The target risk profile for the Fund is set by Distribution Technology ("DT"), an independent agency, and is based on the historic return and volatility of different asset types. The DT risk profile ranges from 1 to 10 with 1 being the least risky, and 10 being the most. (Note: this is not the same as the Risk and Reward Indicator shown in the section below, which is calculated differently and uses a scale of 1 to 7).
 - This Fund aims to stay within DT risk profile 6. We use our experience and research, together with research and allocation guidelines from DT to restrict the types of assets held and the allocation of each type to stay within the target risk profile.
 - The Fund will have exposure to company and government bonds (a type of loan that pays interest), shares in companies, money market instruments (a form of loan that pays interest and is designed to have a stable value), deposits, cash and indirectly to alternative asset classes (such as commodities) and property. Due to the risk profile, the intention is that the Fund will invest at least 50% in shares in companies.
 - The bonds the fund is exposed to may be investment grade (rated as lower risk) or sub-investment grade (rated as higher risk). Investment and sub-investment grade bonds are bonds that have been given a credit rating by a rating agency. Credit ratings give an indication of how likely it is that the issuer of a bond will be able to pay back interest and the loan on time.
 - In order to achieve this exposure, at least 75% of the Fund will be invested in collective investment schemes. At least 50% of the Fund will invest in index-tracker schemes which are operated by Legal & General.
 - The Fund may also invest directly in shares in companies, bonds (both government and non-government), money market instruments (such as treasury bills), cash and deposits.
 - The Fund may use derivatives (contracts which have a value linked to the price of another asset) to: reduce risk or cost; or generate additional capital or income with no, or an acceptably low, level of risk.
- Other information:**
- The Fund is actively managed as the Manager uses their expertise to select investments to achieve the Fund's objective.
 - There is no benchmark available for this Fund as it is constrained by its objective to remain within its risk profile.
 - To help you understand this Fund, its risk profile and how it compares to others in the range we have created a guide www.legalandgeneral.com/mi-guide. Please read this guide to help you decide if this is the right fund for you.
 - This Fund is primarily designed for investors: who have received advice and had their attitude to risk assessed and matched to the risk profile of this Fund but may be appropriate for those investors who have considered the risk profile of this Fund with the others in the Multi-Index range; who are looking for growth and income from an investment in bonds, shares in companies, money market instruments, deposits, cash and indirectly to alternative asset classes (such as commodities) and property.
 - Your units will be accumulation units. Income from the Fund's investments (dividends) will be reinvested back into the value of your units.
 - Although investors can take their money out at any time, this Fund may not be appropriate for those who plan to withdraw their money within 5 years.
 - This Fund is not designed for investors who cannot afford more than a minimal loss of their investment.
 - If you do not understand this document we recommend you seek additional information to help you decide if this Fund is right for you.
 - Units of the Fund can be bought or sold on any dealing day, as defined in the Prospectus. The non-dealing day calendar is available at www.lgim.com/utnndd.
 - The Fund's base currency is denominated in sterling (GBP).

RISK AND REWARD PROFILE

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is not guaranteed to remain the same and may change over time. It is based on historical data and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table above shows the Fund's ranking on the Risk and Reward Indicator.

The Fund is in category 4 because the mix of different asset types in which the fund invests has a balancing effect on the rate at which the fund share price moves up and down. This type of fund is generally considered to be higher risk than one investing only in bonds and lower risk than one existing only in company shares.

Even a Fund in the lowest category is not a risk free investment.

The value of your investment may fall as well as rise and is not guaranteed. You might get back less than you invest.

Further information on the risks of investing in this Fund is contained in the Prospectus available at www.lgim.com.

The risk and reward indicator may not take account of the following risks of investing in the Fund:

- The Fund invests in securities valued in currencies that are different from the base currency of the Fund. Exchange rate fluctuations will impact the value of your investment. Currency hedging techniques may be applied to reduce this impact but may not entirely eliminate it.
- Derivatives are highly sensitive to changes in the value of the asset on which they are based and can increase the size of losses and gains.
- The Fund could lose money if any institutions providing services such as acting as counterparty to derivatives or other instruments, becomes unwilling or unable to meet its obligations to the Fund.
- The Fund invests directly or indirectly in bonds which are issued by companies or governments. If these companies or governments experience financial difficulty, they may be unable to pay back some or all of the interest, original investment or other payments that they owe. If this happens, the value of the Fund may fall.
- By investing in other funds this Fund indirectly holds bonds and property that are traded through agents, brokers or investment banks or directly between buyers and sellers. This makes them less easy to buy and sell than investments traded on an exchange. In exceptional circumstances the Fund may not be able to sell its holdings in other funds and may defer withdrawals, or suspend dealing. The Directors can only delay paying out if it is in the interests of all investors and with the permission of the Fund depositary.
- Investment returns on bonds are sensitive to trends in interest rate movements. Such changes will affect the value of your investment.
- We may take some or all of the ongoing charges from the Fund's capital rather than the Fund's income. This increases the amount of income, but it reduces the growth potential and may lead to a fall in the value of the Fund.

CHARGES

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested.

The price for buying and selling units is subject to a Dilution Adjustment See opposite.

Charges taken from the fund over a year

Ongoing charge	0.31%
----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	None
-----------------	------

- There are no entry or exit charges.
- The ongoing charges figure is based on the latest available expenses at 28 February 2026. This figure may vary from year to year.
- This Fund's ongoing charges include any charges made by any other funds it may invest in. They exclude portfolio transaction costs.
- The ongoing charges are taken from the capital of the Fund.

Other costs:

- **Dilution adjustment:** on any day, the prices for buying or selling units in this Fund are the same. The Fund manager calculates a single price for this Fund based on the mid-point between the buying and selling prices of the Fund's assets. In certain circumstances, the Fund manager can adjust this price to account for whether there is more money going into or coming out of the Fund. This is called a 'dilution adjustment'.

For more information about charges and costs, please see the charges and expenses section in the Fund's Prospectus, or visit our website at legalandgeneral.com/chargesandfees.

PAST PERFORMANCE

- Past performance is not a guide to future performance.
- The figures for the Fund take into account the ongoing charges and assume income (after any tax) is reinvested.
- The performance has been calculated in GBP.
- The annual return is for a 12 month period ending 31 December.
- The Fund launched in 2015.
- This unit class launched in 2015.

PRACTICAL INFORMATION

- The trustee and depositary is Northern Trust Investor Services Limited.
- You can obtain further information about the Fund including copies of its Prospectus and the latest annual and semi-annual reports at www.legalandgeneral.com/reports. Paper copies of these documents are also available free of charge in English from Legal & General Investments, PO Box 6080, Wolverhampton WV1 9RB.
- Investors can get other practical information, including the latest prices, dilution adjustment and details of any other unit classes that are available, by calling us on 0370 050 0955 Monday to Friday between 9:00a.m. to 5:00p.m. Call charges will vary.
- This Fund is subject to the tax legislation of the United Kingdom, which may have an impact on each investor's personal tax position.
- Details of our Remuneration Policy including our Remuneration Committee and how remuneration and benefits are calculated can be accessed from www.lgim.com/remuneration. A paper copy is also available free of charge upon request.

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Schroder Income Maximiser

an Authorised Unit Trust of Schroder Unit Trusts Limited

Class L Income GBP (GB00BDD2F083)

This fund is managed by Schroder Unit Trusts Limited, which is a member of the Schroders Group.

Objectives and investment policy

Objectives

The fund aims to provide income and capital growth by investing in equity and equity-related securities of UK companies. The fund aims to deliver an income of 7% per year but this is not guaranteed and could change depending on market conditions.

Investment Policy

The fund is actively managed and invests at least 80% of its assets in equity and equity related securities of UK companies, which are selected for their long term income and capital growth potential. These are companies that are incorporated, headquartered or have their principal business activities in the UK.

The fund focuses on companies that have certain "Value" characteristics. Value is assessed by looking at indicators such as cash flows, dividends and earnings to identify securities which the investment manager believes have been undervalued by the market.

To seek to enhance the yield, the investment manager selectively sells short dated call options over individual securities, portfolios of securities or indices held by the fund, by agreeing strike prices above which potential capital growth is sold.

The fund may also invest directly or indirectly in other securities (including in other asset classes), countries, regions, industries or currencies, collective investment schemes (including Schroder funds), warrants and money market instruments, and hold cash.

The fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the fund more efficiently (for more information please refer to section 6 of Appendix I of the Prospectus).

The fund's investment strategy will typically underperform a similar portfolio without derivatives in periods when the underlying stock prices are rising, and outperform when the underlying stock prices are falling.

Benchmark

The fund's performance should be assessed against the income target of 7% per year, and compared against the FTSE All Share (Gross Total Return) Index and the Investment Association UK Equity Income sector average return.

Dealing Frequency

You may redeem your investment upon demand. This fund deals daily.

Distribution Policy

This unit class pays income received from the fund's investments to you quarterly.

Risk and reward profile

The risk and reward indicator

The risk category was calculated using historical performance data and may not be a reliable indicator of the fund's future risk profile.

The fund's risk category is not guaranteed to remain fixed and may change over time.

A fund in the lowest category does not mean a risk-free investment. The fund is in this category because it can take higher risks in search of higher rewards and its price may rise and fall accordingly.

Risk factors

Capital risk / Distribution policy: As the fund intends to pay dividends regardless of its performance, a dividend may represent a return of part of the amount you invested.

China risk: If the fund invests in the China Interbank Bond Market via the Bond Connect or in China "A" shares via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect or in shares listed on the STAR Board or the ChiNext, this may involve clearing and settlement, regulatory, operational and counterparty risks. If the fund invests in onshore renminbi-denominated securities, currency control decisions made by the Chinese government could affect the value of the fund's investments and could cause the fund to defer or suspend redemptions of its shares.

Performance risk: Investment objectives express an intended result but there is no guarantee that such a result will be achieved. Depending on market conditions and the macro economic environment, investment objectives may

become more difficult to achieve.

Concentration risk: The fund may be concentrated in a limited number of geographical regions, industry sectors, markets and/or individual positions. This may result in large changes in the value of the fund, both up or down.

Counterparty risk: The fund may have contractual agreements with counterparties. If a counterparty is unable to fulfil their obligations, the sum that they owe to the fund may be lost in part or in whole.

Currency risk: If the fund's investments are denominated in currencies different to the fund's base currency, the fund may lose value as a result of movements in foreign exchange rates, otherwise known as currency rates. If the investor holds a share class in a different currency to the base currency of the fund, investors may be exposed to losses as a result of movements in currency rates.

Derivatives risk: Derivatives, which are financial instruments deriving their value from an underlying asset, may be used for investment purposes and/ or to manage the portfolio efficiently. A derivative may not perform as expected, may create losses greater than the cost of the derivative and may result in losses to the fund.

Liquidity risk: In difficult market conditions, the fund may not be able to sell a security for full value or at all. This could affect performance and could cause the fund to defer or suspend redemptions of its shares, meaning investors may not be able to have immediate access to their holdings.

Maximiser funds: Derivatives, which are financial instruments deriving their value from an underlying asset, are used to generate income (which is paid to investors) and to reduce the volatility of returns but they may also reduce fund performance or erode capital value.

Operational risk: Operational processes, including those related to the safekeeping of assets, may fail. This may result in losses to the fund.

Charges

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charges	0.84%
Charges taken from the fund under certain specific conditions	
Performance fee	
None	

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures and in some cases you might pay less. You can find out the actual entry and exit charges from your financial advisor.

The ongoing charges figure is based on the last year's expenses for the year ending December 2025 and may vary from year to year. The ongoing charge figure excludes portfolio transaction costs. The charges are mostly, if not exclusively, the Schroders Annual Charge (as may be discounted for retail unit classes depending on the size of the fund) but certain additional expenses may be charged as set out in the prospectus. The Schroders Annual Charge (without any discount) for this unit class of the fund is 0.84%. The fund's annual report for each financial year will include details on the exact charges made including any discounts.

Please see the prospectus for more details about the charges.

Past performance

Past performance is not a guide to future performance and may not be repeated. The value of investments may go down as well as up and you may not get back the amount you originally invested.

The chart shows performance in British pound after the ongoing charges and the portfolio transaction costs have been paid.

The fund was launched on 04/11/2005.

The shareclass was launched on 01/10/2013.

Performance figures are only available since the launch of the respective share class.

Practical information

Trustee: J. P. Morgan Europe Ltd.

Further Information: You can get further information about this fund, including the prospectus, latest annual report, any subsequent half-yearly reports and the latest price of units from www.schroders.com/ukinvestor and from Schroders, PO Box 1402, Sunderland, SR43 4AF, England, telephone 0800 182 2399. They are in English, free of charge.

Tax Legislation: The fund is subject to UK tax legislation which may have an impact on your personal tax position.

Liability: Schroder Unit Trusts Ltd may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the fund's prospectus.

Switches: Subject to conditions, you may apply to switch your investment into another unit class within this fund or in another Schroder fund. Please see the

prospectus for more details.

Remuneration Policy: A summary of Schroders' remuneration policy and related disclosures is at www.schroders.com/remuneration-disclosures. A paper copy is available free of charge upon request. The policy includes a description of how remuneration and benefits are calculated & the identities of persons responsible for awarding the remuneration and benefits.

Glossary: You can find an explanation of some of the terms used in this document at www.schroders.com/ukinvestor/glossary.

Benchmark: The income target has been selected because the investment manager deploys strategies that aim to deliver the level of income stated in the investment objective. The comparator benchmarks have been selected because the investment manager and the manager believe that each of these benchmarks is a suitable comparison for performance purposes given the fund's investment objective and policy.
